

Birdwatcher

When twelve-year-old Abby Wincoff is murdered by a serial killer on the loose, Joey Marks, there is much more involved than a straightforward crime case. The entire town is on edge as the locals recall seeing the strange man arriving at the grand hotel in the area. They soon realize how easily this serial killer preyed on one of their own. Though ending the life of one of his victims, Abby, this did not end with her tragic death.

Abby haunts the grounds where her life ended as the local sheriff and his deputies search for her. As Marks realizes that he isn't as inconspicuous as he

thinks, the psychopath will soon pay for his crimes against young girls. The story unfolds in a bleak and dark, but unrelenting way that is rich with vivid imagery and intense emotions as the town unravels in response to this horrific crime.

Birdwatcher is a thoroughly entertaining and thrilling novel. This is a great crime fiction story that is infused with a unique paranormal element. The story is heavily plot-driven but is still captivating. The author's narration is very descriptive, with lively and emotional dialogue and dynamic developments. Greyson writes a gripping, dark, and entertaining novel that blends horror and paranormal mystery elements. It's a well-written story that will keep readers engaged and eager to learn about Abby's fate in the afterlife and the fate of the serial killer.

While I thought some of the character portrayal and dialogue could use a bit more refinement, I still found the book to be highly enjoyable. I recommend *Birdwatcher* for its entertaining storyline and the thrilling developments throughout the book. It's a fantastic story that will keep you on the edge of your seat and swiftly turning pages.
