

Never- DEAD

Monday, September 1, 2025

Dear Ann Greyson,

I recently had the chance to dive into *Never-DEAD*, and what an adrenaline-packed ride it was! From the very first scene being trapped on an airplane when an infected person awakens, you immediately set the stage for a heart-racing, cinematic experience. The tension never lets up, and I was completely drawn into Jenna's harrowing journey for survival.

I just wanted to say how much I truly enjoyed reading *Never-DEAD*. Your storytelling has a distinctive, rare quality that I haven't seen often in other books. It's entirely captivating. That uniqueness is exactly why I felt compelled to reach out, which I must admit is not something I usually do, but I felt was absolutely necessary.

What I especially admired was the dynamic between Jenna and her sister, Hannah. In a genre that often focuses solely on carnage, you gave readers a strong sense of humanity and hope through Hannah's resilience and compassion. The little moments like her remembering Christmas tidings despite the chaos added a touching depth that made the story feel more than just a zombie tale.

You've built a world full of grit, resilience, and action, while also threading through it the emotional pull of family and survival. That balance is something readers will connect with and remember.

But what truly made the story unforgettable for me were other moments as well: Jenna's desperate trek through the abandoned streets, the suspenseful nights when she confronts the undead alone, and the intimate flashbacks revealing the bond between the sisters. Each scene pulled me deeper into their world, making me feel their fear, their courage, and their relentless determination. These experiences made me laugh, gasp, and even sit back in awe at the sheer originality and emotional power of your writing.

It's rare to encounter a story so bold, darkly humorous, and entirely human at the same time. Your ability to craft characters and situations that feel so alive is a rare gift.

Thank you for sharing such a thrilling take on the zombie apocalypse. I look forward to seeing where your imagination and storytelling talent take us next.

Warm regards,
Emily R. Heine
